When everybody decided to arrive for the A.G.M.  
the above were elected or in some cases re-elected.  
They have a job to satisfy you lot!! with your  
UMS and ARIS and considering they won't get paid  
for the time they spend on a Monday night at Committee  
meeting (for 2½ hrs at least) working out a programme  
its your duty to assist. When we have outside activity  
nights its not supported why!! we do have some  
repetition but where new is there you tell us where  
you want to go. Lectures are the best attended meetings
